## Listen to Linthwaite and Cowlersley - turning our conversations into action

### What we did in Linthwaite and Cowlersley

In May 2019, volunteers from Pride in Linthwaite worked with the Colne Valley and Golcar Ward Councillors and staff from Kirklees Council to speak to people from across Linthwaite and Cowlersley about what life is like there. 258 people took part in conversations across the 2 villages in a variety of different places such as online, in the streets, at local schools such as Cowlersley Junior School and in local cafés such as Rudi's Retreat. The results from [Listen to Linthwaite](#) and [Listen to Cowlersley](#) were published in September 2019.

Progress then stalled due to the pandemic and lockdown measures. In summer 2022 Pride in Linthwaite created further opportunities for local people to get involved. More people in Linthwaite shared what they think about the area. They added some new things that were missed earlier, and shared their views on the priorities for action. The group organised six workshops, along with visits to local venues, events and schools. 473 people responded, 214 of which were online. People who shared their views in person did so at one of the 6 public drop-in sessions held across Cowlersley and Linthwaite in places such as Cowlersley Community Out of School Club, The UCHM, The Sair, at the Linthwaite Leadboilers Festival or outside the Premier Store on Manchester Road, and at visits to local junior schools.

Both Listen to Linthwaite and Listen to Cowlersley were led by Pride in Linthwaite in partnership with Kirklees Council. The aim was to better understand what life in both

villages is like for the people who work, visit or live there and understand what is missing from these communities as well as what their aspirations might be. The Place Standard conversations helped us to seek and gather the opinions from residents and talk about the communities of Linthwaite and Cowlersley in a wide ranging way.

## **Strengths in Linthwaite**

### **Natural Space**

The amazing countryside is Linthwaite's best feature, with spectacular views. People are concerned that housing developments are reducing the accessible natural spaces, for example off Hoyle Ing and above Heath Road. There are also issues with quad bike users, mountain bike users, inconsiderate dog owners, rubbish and smashed bottles thrown into the waterways.

### **Suggestions from participants about Natural Spaces**

Seating and rest areas on the canal, reservoir and public footpaths near Heights, Downing Street and High House Edge. Give over more of the village green on Royd House Lane to wildlife or a community garden. More bins for dog waste.

### **Feeling Safe**

Overall people feel safe but there are concerns about vandalism and anti social behaviour, especially around Manchester Road at night. People feel that crime has increased recently (and problems are magnified on Facebook). Walking on Manchester Road by the shops is intimidating for some due to youths hanging about. Many people (of all ages) commented that they don't feel safe at night and wouldn't go out at night. It's rare to see Police in the area and there are no preventative measures.

### **Suggestions from participants about Feeling Safe**

Community Police patrol at night. Preventative work with schools, promoting social responsibility. The karate club have offered to work with Colne Valley High School and young people.

### **Public Transport**

Frequent bus service (though less frequent to the top of Linthwaite) and various routes. Poor services in an evening, weekends and bank holidays. Some services are not reliable for getting to work in the town centre. Poor transport links to areas other than via Manchester Road and to Manchester. It's expensive to use, especially for families. Metro don't enforce use of disabled seating areas on buses. Old transport stock is slow, dirty, packed and unpleasant. Bus stops are conveniently located but there is a lack of bus shelters.

### **Suggestions from participants about Public Transport**

Evening and weekend bus services to Heights, Blackmoorfoot, Upper Clough, as well as A62. Circular bus route to link up Linthwaite. Bus services to Lockwood and Slaithwaite train stations. Cycle racks buses. Lower fares.

## Challenges and issues in Linthwaite

### Facilities and Amenities

Very little facilities for the number of houses. Too many takeaways. People have to travel to other areas for Doctors, chemist, supermarket, fresh food shops, library. Lack of public toilets (toilets at the Business Park are poor). There are no cafes to meet friends or hang out after school. Shopping in Linthwaite isn't pleasurable.

### Suggestions from participants about Facilities and Amenities

Regenerate key areas. More variety of shops, fresh food, GP. Community hub or centre with café. Public toilets.

### Influence and Sense of Control

People want to be asked for their views more regularly - and these activities should reach more people. Many said that they don't feel listened to. Feedback from local councillors is appreciated. Pride in Linthwaite has helped to give the area a local voice. Despite negative aspects to social media, it has been a good way to get local people involved in things and to share local issues.

### Suggestions from participants about Influence and Sense of Control

Regular meetings to bring people together to discuss ways forward.

### Traffic and Parking

Parking is a major issue in Linthwaite. Lack of customer parking on Manchester Road means the shops are not used and is why the shops don't get let often. Parking on double yellow lines on Manchester Road. Speeding on Gillroyd Land and Manchester Road between Linthwaite and Slaithwaite. Lack of speed cameras. Dangerous parking on Waingate, Causeway Side, Clough, Hoyle Ing. Not enough parking for new build houses. Gardens are being turned into parking spaces, which has a negative effect on wildlife and surface water drainage.

### Suggestions from participants about Traffic and Parking

Pay and Display parking - council could rent the spare land at Colne Valley Business Park. Disabled parking bays by shops. One way systems around schools, and crossings. Use double yellow lines, traffic calming and single file parking. No parking at bottom of Slant Gate. Zebra or pelican crossing on Manchester Road. Parking near the dentist - ask Royal Oak for permission. Sign to restrict lorries. Parking warden.

Summaries of all the themes, and the full responses from participants, are available at:
